Re: Archeological Clearance for Proposed
Drill Locations and Access Roads in N 1/2
of N 1/2 of Sec. 13, T 13 N, R 11 W

Dear Mr. West:

We are in receipt of your restricted archeological clearance dated July 26, 1976. We thank you for the partial clearance on all areas other than your archeological sites TEDCO 3, 4, 6, 8, and 9.

We hereby confirm that no exploration work of any nature, whether drilling or road building will occur within the archeological sites, that the drill hole locations in sites TEDCO 3, 6, 8, and 9 will either be abandoned or relocated outside of the archeological sites, and that necessary road construction will not cross Tedco 4.

Reference the change of road, we will probably follow very closely the diagram to the South of the TEDCO 4 site per your map #2 attached to your original provisional clearance.

Sincerely,

G. Warnock
